**The More You Know:** The "Goals" tab also allows you to view and modify existing Goals. You can rename, increase/decrease goal amounts, and even modify the accounts to track by clicking into the appropriate one.

3) Choose one of our suggested goal types or click the "Custom Savings Goal" to create one of your own.

4) Complete the following fields related to the goal you are establishing. "This account has [dollar amount]. Start tracking [dollar amount] towards my goal" field allows you to consider a dollar amount of your choosing already available in the account used to monitor your goal. If you would like to begin saving for this goal starting at \$0, enter a zero in the dollar amount field. In the example below, the user's Primary Savings account has a current balance of \$1,000.00. They are choosing to apply \$500.00 of that \$1,000.00 to their "Trip to Hawaii" goal.
